The screams of the wounded could be heard squares, and some of the most heart-rending scenes took place. Before the debris could be moved several persons died in the wreck. A deluging rain was pouring down,

causing those who were injured to sufsecond section telescoped several of the me as reported." cars of the first section. A crowd soon gathered and an ambulance carried the wounded to the city hospital, numbering up to this time, fifty men, women all who are missing.

The cause of the accident is not exactly known, but there seems to be a mistake in the reading of the signals. Several Hungarians were busy robbing the dead, but were arrested and locked up. An immense crowd has gathered at the scene of the wreck, and the entire police force has been called to preserve order.

Mr. Depew Declines. NEW YORK, June 27.-The Herald's Washington correspondent says: Mr. Chauncey M. Depew declines to accept the portfolio of the state department. This information was communicated to me by a member of the cabinet who had been personally interested in Mr. Depew's acceptance. One reason given by Mr. Depew for declining the place is that he would have to make too great a falcation would largely exceed \$200,000; financial sacrifice. He also believes probably \$300,000. that he can serve the republican party better as a private citizen than as see retary of state.

THE BANK GAVE WAY. Square Miles Flooded, the People Escaping on Improvised Rafts.

CHICAGO. June 27 .- Five square miles of territory adjacent to the village of Dauphin, a suburb of this city, were buried beneath a flood Sunday night, and a thousand or more houses between State street and lake Michigan are at the mercy of the waves, which a strong northeast wind has forced through the basement and first floors. The great body of water which has been collecting in the lake region has broken all barriers, and Sunday afternoon burst the last barrier at Eighty-seventh street, rushing down with terrific force upon Grand Crossing, whose citizens are panic-stricken by the sight of a sea of rising water, generally invading every home, driving householders either from their dwellings or to the second stories.

At the present writing there is not less than two feet of water in the streets. Every basement is flooded and the foundations of numbers of buildings are weakened. The immediate cause of the flood is the breaking of the Eightyseventh street bank, due to an accumulation of water during the recent storm. Grand Crossing at midnight was in

despair. At Fordham and Dauphin Park the suffering was only less in degree that there were fewer to suffer and a less number to experience the terror of a possible death before morning in waters which were rising at the rate of one inch an hour. Every effort is being made by those overtaken by the flood to escape with their families.

It is only by means of improvised rafts that movement from one point to another is possible. Up to the present no loss of life is reported, but rescue parties have started to help those whose perilous condition gives rise to fear for their safety. Two boys were drowned in that part of the west branch known as Mud lake Sunday.

One Thousand Persons Believed To Be Drowned

A Sailing Ship and a Steam Ship More Than a Week Overdue.

Sailors Discover Two Wrecks Far From Land, and Beyond a Doubt They and Their Crews and Passengers West to the Bottom of the Ocean.

NEW YORK, June 27 .- Mariners here abouts incline to the opinion that a terrible disaster has recently occurred at sea somewhere near this port, in which more than a thousand souls have perished. The facts that lead to this opinion are as follows:

Saturday the steamer Ocean arrived and reported that on last Thursday feets, morning the wreck of a full-rigged ship was passed in latitude 40°, 22' north 40' west. The captain of the Ocean made a careful examination to ascertain the years. name of the craft, but owing to the wreck being overturned and partly submerged, he could only make out the boat, in which he expects to cross the words "Yarmouth, N. S.," on the stern. ocean. The vessel was cut through forward of the mizzen rigging, evidently done in collision. From a description of the wreck, as given by the captain of the Ocean, shipping men believe that the vessel is the British sailing ship, Fred vessel was sighted 900 miles out from next October. Sanday Hook, on June 12, and should have reached port over a week ago.

The steamship Vega, with a crew of sixty men, commanded by Capt. Rosa, sailed from Lisbon on June 6 for the Azores and New York. She had three hundred and sixteen passengers when she sailed from Lisbon, and it is expected that she shipped nearly twice that many from the ports in the Azores. The steamer was due here last Tuesday, but has not arrived. Her agents are very anxious regarding the vessel. while scores of the friends of the passengers have been besieging the barge office to learn something of the whereabouts of the steamship and its human freight. In yiew of these facts, therefore, those versed in marine affairs are of the opinion that a collision has occurred between the Vega and the Fred B. Taylor, and that the loss of life has been appalling. F. E. Hurlburt was the commander of the Taylor. His young wife is in this city, but knows nothing of the terrible disaster that may have befallen her husband.
